

Aliyah Rizq Holdings

Introduction to Aliyah Rizq

Aliyah Rizq Holdings

About Aliyah Rizq

From Backyard Farm to Global Ethical Livestock Leader

Founded in 2015 in Mersing, Malaysia, Aliyah Rizq started as a small family farm with **2 acres of land and 30 animals**, focused on serving the Muslim community through **Aqiqah and Qurban**.

Today, we are a regional halal livestock supply chain specialist, known for ethical farming, integrity, and scale.

Our Vision

To set the **ASEAN Livestock Standard** as a globally recognised benchmark — elevating Asia's meat and livestock industry to produce **trusted, high-quality halal products** accepted and exported worldwide.

Our Mission

To **nurture, educate, and empower farmers** through sustainable practices, technology, and ethical farming — enabling the production of **world-class meat, livestock, and by-products** with full integrity, stability, and traceability from farm to market.

"We don't just raise livestock — we raise standards."

Aliyah Rizq Holdings

Our Presence

“From a Local Farm to a Global Footprint.”

From our beginnings in Malaysia, Aliyah Rizq Holdings has expanded steadily across **Southeast Asia and Africa**, building a trusted halal livestock ecosystem that connects farms, communities, and markets worldwide. Each stage of our growth reflects a deliberate focus on **ethical farming, farmer empowerment, and scalable impact**.

Today, our operations span **multiple regions**, supported by owned farms, a large cluster farming network, and strategic offices that enable end-to-end supply chain excellence.

Meet Our Team

At Aliyah Rizq Holdings, our strength lies in our people. Our team brings together **diverse expertise and decades of collective experience** across agriculture, livestock management, supply chain, and community development. United by a shared purpose, we work together to deliver **ethical, high-quality halal products** while driving sustainable growth and long-term impact.

Livestock Business Operations

Our company offers a comprehensive livestock supply chain solution, catering to distributors (B2B), end-users (B2C), and government organizations (B2G).

We maintain a **stable sheep breeding flock** through a robust network of small shareholder farmers in Indonesia, enabling increased exports to Malaysia.

With an in-house quarantine facility in Indonesia, we ensure cost-effective and efficient livestock management. Our proven business model emphasizes farming as a trading hub, meeting the demands of small farmers in Malaysia while driving sustainable growth in the livestock industry.

Control Livestock Supply Chain

The company can supply to distributors (B2B), end users (B2C) and even government- related organizations (B2G).

Small Shareholder Farmers 'Breeding Network

A stable sheep breeding program powered by small shareholder farmers in Malaysia, Indonesia, Thailand, and Africa, focusing on imports, exports, trading, supply chain, and downstream products.

Quarantine Facilities

Own quarantine facility in Indonesia which reduces costs to maintain management efficiency.

Farming as Trading Arm

Proven business model as trading serves as fundamental focus, fulfilling orders from small farmers in Malaysia.

Aliyah Rizq Holdings

Farming & Sustainability Programs

ARH Business & Revenue Model

Promoting sustainable practices and innovation in agriculture and livestock management.

OwnerSheep Programme

A collaborative investment opportunity in sheep breeding, allowing participants to share costs and profits while supporting sustainable farming practices.

Agriculture & Aquaculture Internship Program

A practical program for students to gain hands-on experience in agriculture and aquaculture, covering crop cultivation, aquaponics, and sustainable fish farming.

Feed Formulation Research & Development

Innovative feed solutions focused on optimising livestock nutrition, improving health, and increasing productivity through scientific research and development.

Aliyah Rizq Holdings

Livestock & Trade Services

ARH Business & Revenue Model

Enhancing livestock welfare, farming expertise, and ethical trade practices.

Consulting and Mentorship on Livestock Farming

Personalized guidance from experienced farmers on livestock care, breeding, feed management, and market strategies to help you succeed in farming.

Livestock Welfare Management

Ensuring the health and ethical treatment of livestock through proper care, disease prevention, and humane handling techniques.

Livestock Import & Export

Facilitating international trade of livestock, covering regulatory compliance, health certifications, and logistics for smooth transactions.

Qurban & Aqiqah Services

Comprehensive solutions for Qurban and Aqiqah, from selecting livestock to slaughtering, packaging, and distributing meat in accordance with Islamic practices.

Aliyah Rizq Holdings

Welcome to the OwnerSheep Program

A smarter, kinder way to own livestock, powered by Aliyah Rizq.

Aliyah Rizq Holdings

What is the OwnerSheep Program?

**Real animals. Responsible care.
Shared benefits.**

A service and ownership program that allows individuals to purchase sheep — which we care for, manage, and eventually sell on your behalf. You retain ownership while we handle the operations.

Why We Started This Program

Many want to own livestock but lack land or time. Others want to support ethical, scalable food systems. We created a program where owners benefit from eventual sheep sales, while we grow our supply chain.

Objectives:

- Ethical livestock care
- Increased sheep supply for butchers, supermarkets, and abattoir.
- Lower costs through economies of scale
- To expand from Serviceable Obtainable Market (SOM) to Serviceable Available Market (SAM)

Aliyah Rizq Holdings

How The Program Works

Step 1

You select the number of sheep (min. 4 sheep)

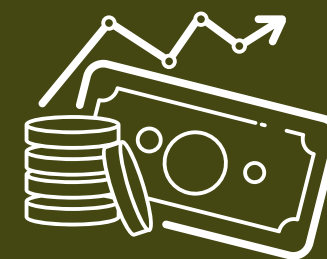

Step 2

You agree to our service terms and make payment

Step 3

We provide full livestock care and transparency

Step 4

Grow and sell your flock for profit

Aliyah Rizq Holdings

What Happens On the Farm?

**Sheep cared
for at farms in
Malaysia**

**Bi-annual
updates on
health and
growth**

**Handled by
trained farmers
and vets**

**Overseen by
Aliyah Rizq's
livestock
management
team**

How Does Breeding Work in the OwnerSheep Program?

Female sheep typically breed once a year, occasionally producing twins.

In optimal conditions, some can produce 2–3 offspring per year.

Gestation period: ~5.5 months

Our breeding schedule is optimized over a 36-month cycle.

We factor in natural downtimes (recovery, health, weaning, etc.)

[illegible]

Wait... What's the Difference Between Sheep & Goats?

- Sheep are generally **quieter, calmer**, and bred for meat/wool.
- Goats are more **curious, agile**, and often used for milk.
- **Our program focuses on sheep**, not goats.
- Reason: Sheep offer higher breeding consistency and lower management risk.

Aliyah Rizq Holdings

Your Benefits as an Owner

- Signed Deed of Ownership
- Full-service livestock management
- Proceeds from sale of your sheep (after agreed terms)
